Look at the Tubular, then look at all other separators, then look at the Tubular again, then buy it. That's what you will do because your good judgment won't let you do anything else. I want to show you a

AN INQUIRY FOR A SISTER

Who Perhaps Lived in Phoenix at One Time.

The following letter was lately received at the Phoenix post office addressed to "Some Kind Lady in Phoenix." The writer says: "I have been trying to find my sister who went to Phoenix several years ago and I have not been able to ascertain whether she left there or not. She was a wealthy woman but lost heavily in sheep some years ago and seems not to care to know of her condition. I have now already written to many persons but have received answers from only one. Her name is Lydia Lane and I think she went to your state to the health of a nephew who lived with her. His name is Robert Lane II living. I am very sad on account of not knowing where she is and how she is doing. She is now an old lady and perhaps getting feeble. She may not be living. If you will kindly make some inquiries and please answer a sorrier one I will be very grateful. My sister lived some years ago in Pueblo, Colo."

The name of the writer is Mrs. Esther L. Brown of Des Moines, Iowa.

Some inquiry has been made about Mrs. Lane but nobody has been found who resembles any one of that name or the name of Robert Lane. There is perhaps no town in the country in which people who have not lived in it for years don't go out of remembrance sooner after going away than in Phoenix. Even they don't recall some man or some other man whom he used to know and who may have obtained more or less prominence in the course of a year or two or may be a half dozen years. He is already all but forgotten. Even his neighbors though they may have an indistinct recollection of him often do not remember his name.
